Jukebox

ONE MORE TIME CD –
a real treat for the eyes and ears
Chrome and glitter, rotating light columns with magically changing colours. A fascinating spectacle of light and sound. That is the Wurlitzer ONE MORE TIME (short form OMT) CD.

Today’s life-style has rediscovered the nostalgic charm of the forties and fifties. The beloved design of those days with chrome and glitter is a welcome change to the priority of functional and abstract features which dominate nowadays. The Wurlitzer One More Time combines both.

The faithful design of the legendary Wurlitzer 1015 of 1946 is the ideal casing for the sophisticated Wurlitzer CD changer. Now the music of Glenn Miller sounds in pure CD quality. But not just Glenn Miller, the One More Time CD plays up to 2500 hits and evergreens in superb laser sound quality.

The ONE MORE TIME - the exceptional way to listen to music.

The songs are shown on max. 60 title cards. These pages are turned automatically at the touch of a button and give full view of 6 CDs at the same time.

The rotating lights with their constantly changing colours and the endless rising bubbles offer a fascinating spectacle.

Option: Infrared remote control

Option: Microphone kit
